The Global Petroleumscape: the exhibition

The spatial impact of oil flows

Petroleum – its extraction, refining, transformation, and consumption – has shaped our built environment in visible and invisible interconnected ways around the world over the last 150 years. Industrial structures, buildings, monuments, urban forms, and infrastructure stand as material witnesses to the ubiquity and power of petroleum. Many people orient themselves in space referring to gas stations, others point to oil headquarters as local urban icons, and a select few are aware of local oil industry facilities or the educational, housing or leisure facilities of the petroleum industry employees. But while observers recognize the connection to oil in select buildings, they do not picture the enormous collective presence of oil in the built environment, its impact on production processes, financial flows, and associated social and cultural patterns in our everyday environment, or the long history of oil’s impact on our lives. Expanding on the show “Oliedam: Rotterdam in the Oil Era from 1862-today,” this augmented exhibition on “The Global Petroleumscape” analyses the impact of oil in shaping architecture and the urban landscape at a larger global scale.

16:50-17:30 Discussion

17:30 Global Petroleumscape: Exhibition opening

Dinner individually

May 19th in Room Berlage Zaal 1

Morning: The Petroleumscape of Central and Eastern Europe and Russia, Book Publication plans and tools

Afternoon: Visit to Rotterdam Oil Port, Opening for ArchiMediaL research project

9:00-10:00 Go/No Go Presentation and Discussion

Fatma Tanis (External Dr. Stephen Ramos, Prof. Dr. Paul van de Laar)

10:00-10:30 Keynote 10 Prof. Dr. Paul van de Laar Erasmus

University Rotterdam: Rotterdam Transropolis: the transformation of a port-economy since the 1870s

10:30-11:00 Break and Visit to the Exhibition

11:00-11:30 Roundtable and Presentation

Setting out Mapping Research on Flows of Oil and Spatial Development Around the North Sea.

Ir. Arnold de Waaijer PhD. and Erfan Farahmand, TU Delft chaired by Prof. Dr. Ing. Carola Hein and Ir. Arnold de Waaijer Ph.D

11:30-12:45 Research Presentations

How can Mapping Contribute to Landscape, Urban and Architecture Research Projects?

11:30-11:37 Dr. Ing. Steffen Nijhuis and ir. Michiel Pouderoijen, TU Delft, Chair of Landscape Architecture: Landscape Composition & Systems

11:40-11:47 Prof. Dr. Ir. -Arch. Johan Lagae, Ghent University: The Making and Shaping of a Congolese Harbor City During the Interwar Years

11:50-11:57 Ir. Merten Nefs, Delta Metropolis Association: Urban Systems.

12:00-12:07 Dr. Jaap-Evert Abrahamse and Drs. Menne Kosian, Cultural Heritage Agency of The Netherlands: The History of Cities and the Urban Landscape in the Netherlands Mapped

12:10-12:17 Ir. Iskandar Pané, TU Delft, Chair of Complex Projects: Mapping the University Campuses of Delft and Eindhoven

12:20-12:55 Discussion

12:55-13:15 Conclusion:

Road Map for Spatial Research, Visualisation and Publication. Establishing a roadmap for publication, with Prof. Dr. Ing. Carola Hein

13:15-14:00 Lunch in Room Berlage Zaal 2

14:00-17:00 Visit to Rotterdam Oil Port and Oil related facilities in the Randstad

(half-day tour to get all participants acquainted with the concept and the Dutch location)

Parallel Event:

Launch of the Volkswagen Foundation Grant Project ArchiMediaL, led by: Carola Hein, Dirk Schubert, Beate Löffler, Jan Gemert, Victor de Boer, in Room Berlage Zaal 1

14:00-14:30 Presentation of the ArchiMediaL project

14:30-15:00 Discussion

15:00-17:00 Internal Kick-off
