

An aerial photograph of an industrial facility, likely a refinery or chemical plant. A prominent feature is a tall, blue and white cylindrical tower on the left side. The facility includes various buildings, pipes, and storage tanks. The background shows a large area with many small, rectangular structures, possibly a parking lot or a storage yard. The overall scene is brightly lit, suggesting a clear day.

# **Open Seminar Series**

## ***Geoscience & Remote Sensing***

# **Drones for innovative data capture**

*Pieter Franken, Skeye BV,  
May 7, 2015, 12.40 – 13.30,  
CiTG room 4.03*

**Drones are currently seen as a hype for data capture. Despite this hype there are currently no more than a 100 people in the Netherlands making a full-time living with a drone. During this lunch time seminar I will highlight the opportunities, challenges, future and misconceptions around drones. I will further demonstrate some examples of projects that our company Skeye has been involved in in using drones commercially.**
