For those coming by car, take motorway A13, exit 10 Delft Zuid and follow TU Delft signs. Having left the motorway, follow the signs for Electrical Engineering ('EWI' or 'Electro'). You will see the high 'Electrical Engineering' building of Mekelweg 4, that has its back entrance at the Feldmannweg. EKL is situated next to a large grey hall on this same road number 17.

For those arriving by plane at Amsterdam Schiphol Airport, and for those travelling by train: take the train to Delft Central station. There, take a taxi or bus (nr. 69, 121 or 129) to the Feldmannweg 17.

For those coming from Rotterdam-The Hague Airport (Zestienhoven), take a taxi to Delft (15 minutes).
