

DON'T PASS IT ON

I have corona or corona symptoms

Arrange a corona test. Stay at home and wait for the results of your test.

Negative test result

You may return to the faculty – so long as you are not quarantined due to a housemate awaiting corona test results.

Positive test result

Self-isolate and do not come on campus. Follow the guidelines of the GGD (the Area Health Authority) to determine how long you must self-isolate and when you can return to campus. Please contact your fellow students and teachers with whom you may have been in close contact (less than 1.5 metres for 15 minutes). If staying at home will impact your study progress, please contact:
academiccounsellor-ide@tudelft.nl

My housemate has corona symptoms and has been tested

All members of the house go into quarantine. Please wait for the results of the test.

Housemate gets negative test result

You may return to the faculty – so long as you are not quarantined due to a housemate awaiting corona test results.

Housemate gets positive test result

Complete a quarantine period of up to 10 days after the last close contact with your housemate. If you appear to have symptoms you arrange a corona test.

Negative test result

You may return to the faculty – so long as you are not quarantined due to a housemate awaiting corona test results.

My classmate has corona or corona symptoms

If classmates appear to have symptoms, talk to them and explain that they should go home and get tested. If necessary, discuss with your coach how you will approach this subject with the classmates in question.

If your classmate has symptoms and you have been within 1.5 metres for more than 15 minutes in the two days before the symptoms started, do not come back on campus until your classmate receives a negative test result. If the result is positive and you are a close contact, the GGD will contact you. If you start to show symptoms, get tested as soon as possible.

GOOD TO KNOW

- Questions about corona-related issues?
Email: io@tudelft.nl
- Online education is always an option. You can participate in your course online if you are quarantined at home.
- Look at the course pages on Brightspace to find out who you need to contact if you want to follow education online as a result of corona.
