Do you have an ORCID iD?

As a TU Delft researcher you are highly encouraged to create an ORCID iD. ORCID is the international identifier for researchers.

- It makes your work visible and connected to you throughout your career
- It ensures proper attribution
- It minimizes repetitive entering of data online
- It is required by major publishers and research funders

Create your ORCID in 3 steps

1. Register your ORCID iD via orcid.org/register
   Complete the easy online registration in 30 seconds.

2. Add information
   Enhance your ORCID record with your professional information. Give trusted organisations (like IEEE, PLoS and AGU) permission to update your ORCID record.

3. Use your ORCID iD
   Include your ORCID iD when you submit new publications, apply for grants, and enter it in your research workflow to ensure you get credit for all your work.
