In 2019, the Deal Rate shall be calculated by adding one (1) per cent to the Baseline Revenue.

In 2020 and subsequent years, the Deal Rate shall increase or decrease in proportion with the Change in Article Output for that year. The sum paid by the Institutions to the Publisher in any year shall not rise compared to the previous year by more than five (5) per cent or fall by more than five (5) per cent, regardless of whether the Change in Article Output exceeds these amounts.

For the avoidance of doubt, in 2020 this shall be the number of articles published in the Publisher’s journals by authors affiliated with the Institutions in 2017, 2018 and 2019 divided by the number of articles published in the Publisher’s journals by authors affiliated with the Institutions in 2016, 2017 and 2018.

Deal Rate
The sum paid by the Institutions to the Publisher in a given year for online access to the Publisher’s journals and for Open Access publication of articles published in the Publisher’s journals by authors affiliated with the Institutions during that year.

Historic Nominal APC Payment
The sum the Institutions would have paid to the Publisher if the Institutions paid a Full APC (Article Processing Charge) to the Publisher for the entirety of the Historic Article Output divided by three.

Open Access (OA)
