Free Electives on Digital Design and Asset Management for all CE/ODE/CME/TIL MSc students

In Q1 and Q2 three elective MSc courses are offered in the area of Digital Design and Asset Management. These courses are open for all MSc-students CE, ODE, CME and TIL and are complementary to the different engineering domains.

The following courses are offered in Q1:

CIE 4381 Engineering Asset Management, by prof. Rogier Wolfert, dr. Daan Schraven, ir. Martine vd Boomen.

This course provides an overview of engineering asset management principles and techniques:

e.g. performance requirement contracting system life cycle processes, (probabilistic) costing & scheduling, operations and maintenance management, risk management planning and engineering asset optimisation and financing.

Lecture day is Wednesdays 7th and 8th hour.

First lecture: Wednesday 5 September, 15.45-17.30h.

CIE 4120 Information Systems for Construction, by dr. Sander van Nederveen, prof. Rogier Wolfert and guest lecturers

This course provides an introduction into information management and into digital methods and tools for different engineering asset phases such as Design/Construct/Operate/Maintain. Three tools will have a dominant role in this course: BIM/Revit&Navisworks; SE/Relatics; O&M management/Maximo.

Lecture days are Monday 5th and 6th hour and practical work on Tuesday 1st-4th hour in Q1.

First lecture: Monday 10 September, 13.45-15.30h.

The following course is offered in Q2:

CIE 4481 Systems Engineering Management, by dr. Sander van Nederveen and prof. Rogier Wolfert.

In this course an overview of concepts, principles and practices of system analysis, design and development is given. Systems Engineering (SE) will be applied from different perspectives over the entire life cycle of civil engineering assets

Lecture day is: Thursday 7th and 8th hour.

First lecture: Thursday 15 November, 15.45-17.30h.

These courses can be chosen as separate electives. However, these courses are as bundle also part of the Integral Design & Management (IDM) annotation, see www.tudelft.nl/citg/IDMannotation

InfraTech Innovatieprijs

[De Bouwcampus](#) stimuleert vernieuwing in de bouw. Als strategisch partner van de vakbeurs [InfraTech](#) roepen wij jou daarom op om mee te doen aan de InfraTech Innovatieprijs.

Het thema van InfraTech 2019 is Future Proof. Dat betekent openstaan voor nieuwe vaardigheden en luisteren naar een nieuwe generatie technuten. InfraTech doet dat met de Innovatieprijs die innovatieve ideeën op het gebied van het bouwen, onderhouden, renoveren en verduurzamen van infrastructuur stimuleert. Denk hierbij aan vaarwegen, spoorwegen, kabels en leidingen, IT-infrastructuur, wegen, landuitbreidingen, industriële complexen, warmte transportleidingen, et cetera. Niet alleen bedrijven en overheden, maar juist ook studenten en young professionals kunnen deelnemen. Er zijn drie categorieën: Productinnovatie, Procesinnovatie en Vernieuwende samenwerking.

[Bekijk hier het reglement van de InfraTech Innovatieprijs.](#)

In november en december worden alle genomineerde ideeën op De Bouwcampus tentoongesteld. In december pitchen de genomineerden hier voor de vakjury. De winnaar ontvangt een InfraTech promotiepakket ter waarde van € 2.500,- of € 500,- cash. Daarnaast maken alle inzendingen kans op de Cobouw Publieksprijs. De bekendmaking van de winnaars vindt plaats tijdens InfraTech 2019 in Rotterdam Ahoy van 15 t/m 18 januari 2019 waar alle inzendingen in een galerie op de beursvloer getoond worden.

Iedere twee jaar strijden meer dan 50 inzenders om de titel Infra-Innovator. In 2017 streken een gigantisch dijkversterkingsproject en een slimme spoorverbetering met deze eer. Ga jij in 2019 met de titel aan de haal? Meld jouw infra innovatie vóór **26 september 2018** aan via het [inschrijfformulier](#). Je hebt tot 21 oktober de tijd om de innovatie in te dienen.
