TEACHING AND EXAMINATION REGULATIONS

(OER)

(from Article 7.13 of the Higher Education and Research Act)

BACHELOR’S DEGREE PROGRAMME

Nanobiology

2018-2019

Faculty of Applied Sciences of DELFT UNIVERSITY OF TECHNOLOGY

&

Faculty of Medicine of the Erasmus University Rotterdam
| Paragraph 1 | General | (art. 1-2) |
| Paragraph 2 | Admission and prior education | (art. 3-4) |
| Paragraph 3 | Content and composition of the programme | (art. 5-12) |
| Paragraph 4 | Registration for and withdrawal from | (art. 13-15) |
| Paragraph 5 | Examinations | (art. 16-24) |
| Paragraph 6 | Studying with a disability | (art. 25) |
| Paragraph 7 | Study support and (binding)recommendation on the continuation of studies | (art. 26-27) |
| Paragraph 8 | Final Provisions | (art. 28-32) |

Appendix to Art. 3 of the TER – admission regulations

Appendix Programme specifics BSc Nanobiology (separate document)
Paragraph 1 - General

Article 1 – Applicability of the regulations

1. These regulations apply to the teaching and examinations of the Bachelor’s programme Nanobiology, hereinafter referred to as 'the programme'.

2. The programme is provided under the responsibility of of the Erasmus Medical Centre in Rotterdam and the Faculty of Applied Sciences at Delft University of Technology, hereafter to be referred to as the faculty.

Article 2 - Concepts

1. The following concepts apply in this Regulation:
   a. first academic year: the first period in the programme with a study load of 60 credits, as specified in Article 7.8b Section 8 of the Act;
   b. degree audit: an assessment, in which, in accordance with Article 7.10 of the Act, the Board of Examiners determines whether all examinations in the subjects of the degree programme have been successfully completed;
   c. negative binding recommendation on continuation of studies: the recommendation on the continuation of studies at the end of the first year of enrolment as specified in Article 7.8b Section 3, first sentence;
   d. programme: the Bachelor’s degree programme, as stipulated in Article 7.3a, Section 1, Subsection a in the Act;
   e. Osiris: the education information system;
   f. practical exercise: subject or component of a subject aimed at the acquisition of particular skills. The following can be understood as practical exercises:
      - writing a thesis,
      - conducting a project or experimental design,
      - carrying out a project or a design/research assignment,
      - completing an internship,
      - participating in field work or an excursion,
      - conducting tests and experiments, or
      - participating in other educational activities that are considered essential and that are aimed at acquiring particular skills;
   g. bridging programme: a deficiency programme aimed at moving up to a Master's degree programme, as stipulated in Article 7.30e or Article 7.57i of the Act;
   h. student: a person enrolled at Delft University of Technology and Erasmus MC in order to receive education and take the examinations and the degree audit in the degree programme;
   i. credit: credit in accordance with the European Credit Transfer System (ECTS); one credit equals a study load of 28 hours;
   j. study guide: the digital guide for the degree programme containing specific information on the subjects included in the degree programme (www.studiegids.tudelft.nl);
   k. examination: investigation of the student's knowledge, insight and skills with regard to a subject, along with the assessment of that investigation;
   l. track: major, as stipulated in Article 7.13, Section 2, Subsection b of the Act;
   m. subject: a unit of study within the programme, as stipulated in Article 7.3, Sections 2 and 3 of the Act with which an examination is associated;
   n. working day: Monday through Friday, with the exception of recognised holidays and the collective closure days;

2. The other concepts in these regulations are used in the sense in which they appear in the Act.

3. In these regulations, the term 'examination' also refers to 'interim examination', with the exception of
Articles 19, 22 and 25.

**Article 2a - Rules of order regarding access to buildings and premises**

Without prejudice to the relevant rules, as adopted by the Board of Erasmus MC, the dean has declared that the rules of order of the EUR are applicable to the premises of Erasmus MC and, accordingly, to students of Nanobiology.

**Paragraph 2 - Admission and prior education**

**Article 3 - Admission to Bachelor’s degree programmes**

1. Access to education in the Bachelor’s degree programme in Nanobiology is open to individuals possessing a certificate as stipulated in the law and corresponding ministerial regulations with the proper profile or subject, or on the condition that all of the stated requirements have been met.

<table>
<thead>
<tr>
<th>ONLY FOR PROGRAMMES WITH NUMERUS FIXUS/DECENTRALISED SELECTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>In addition, the programme is accessible only to individuals possessing a notice of admission, as stipulated in the TU Delft Selection and Placement Regulations, after having completed the procedure in the aforementioned Regulations and the Selection Criteria Regulations and Procedure for the degree programme in Nanobiology.</td>
</tr>
</tbody>
</table>

The prior education requirements are elaborated below, by type of certificate.

**a. Certificate of pre-university education (VWO; as stipulated in Art. 7.24.1 a or b of the WHW) or a Surinamese diploma for pre-university education (VWO)**

**S&E profile** [with Biology]

**S&H profile** [with Mathematics B and Physics]

**E&S profile** [#]

**C&S profile** [#]

The following applies as well:

- individuals possessing a pre-university (VWO) certificate with the S&H profile from before 2007 are eligible for direct admission;

- individuals possessing an ‘old style’ pre-university (VWO) certificate with Mathematics B and Physics in the combination of modules are eligible for direct admission;

- individuals with certificates that do not include the aforementioned modules must rectify these deficiencies before they can be registered and admitted (no later than 31 August).

**b. Bachelor’s, Master’s or Doctoral degree, or a certificate of first-year degree audit for higher professional education obtained at a Dutch institution**

The following applies to this category:

- individuals possessing a pre-university (VWO) certificate, as mentioned in Subsection a, are subject to the conditions of the table in Subsection a;

- individuals possessing certificates from senior general secondary education (HAVO) or senior secondary vocational education (MBO) must rectify the deficiencies relative to the pre-university (VWO) level [Mathematics-B, Physics] before they can register and be admitted (no later than 31 August).

**c. Foreign degree**

Individuals holding a foreign degree (regardless of whether they were earned abroad) or diplomas based on a European or International Baccalaureate programme must rectify the deficiencies relative to the pre-university (VWO) level [Mathematics-B, Physics, Biology and Chemistry] before they can register and be admitted (no later than 31 August).
Individuals in this category must also meet the requirements of satisfactory linguistic mastery of Dutch or English, as stated in the appendix. They must rectify any language mastery deficiencies before they can register and be admitted (no later than 31 August).

2. In all non-standard cases, the admissions committee of the Bachelor’s degree programme will assess whether their qualifications reflect an adequate level of Mathematics and Physics.

**Article 4 - University entrance examination**

1. The process of conducting the admissions examination, as specified in Article 7.29 Sections 2 and 3 of the WHW, is assigned to the TU Delft University Entrance Examination Committee established for the joint programmes.

2. Individuals who have reached the age of 21 years and who would like to be eligible for a university entrance examination must possess the following:
   1) a partial pre-university education (VWO) certificate for the subjects [Mathematics and Physics], or a certificate from a continuing education course or a test administered by the institution, and

3. The TU Delft University Entrance Examination Committee assesses whether the candidate possesses the certifications (or partial certifications) mentioned in Section 2. If this is the case, the committee will conduct an interview with the candidate, in which they examine the candidate further and determine whether the candidate has satisfactory communication skills in Dutch.

**Paragraph 3 - Content and composition of the programme**

**Article 5 - Goal of the programme**

1. The programme is intended to educate students to earn a Bachelor of Science degree in Nanobiology, providing them with such a level of knowledge, insight and skills in the area of Nanobiology, that graduates can fulfill positions on the labour market at the Bachelor’s level.

   And be eligible for a follow-up programme at the Master’s level, in any case, the Master’s degree programme(s) in Nanobiology at TU Delft/Erasmus Medical centre, Infection and Immunity, Molecular Medicine and Neuroscience at Erasmus Medical centre.

2. Graduates must also meet the specific final attainment levels for each degree programme. The Bachelor of Science graduate of the programme Nanobiology that has the aim to bridge the fields of mathematics, physics and biology. The student:

   1. will have relevant, current and fundamental knowledge of mathematics, physics and biology, as well as the methods and techniques of scientific research.

   2. will be able to identify related concepts in biology and physics and to apply knowledge from one field of science to another.

   3. will be able to use the acquired knowledge to follow current scientific research in the fields of biology and biophysics intensively, in addition to understanding and interpreting this literature.

   4. will have demonstrable experimental research skills in the fields of molecular biology and biophysics.

   5. will have the required communication skills.

   6. will be aware of the need for lifelong learning and of the utility of creativity to the achievement of scientific progress.

**Article 6 - Track**
Article 7 - Composition of the programme and degree audits

1. The programme includes the Bachelor’s degree audit, with a study load of 180 credits. This includes the first academic year, with a study load of 60 credits, which is concluded with a binding recommendation on the continuation of studies. The second and third academic years have a combined study load of 120 credits. This phase includes a minor with a study load of 30 credits.

2. As a component of the programme, the minor includes the following variants:
   a. Thematic minor, as approved by the university,
   b. Self-composed minor, as approved by the Board of Examiners.

3. The Bachelor’s degree audit is concluded with a final test or assignment. This test or assignment demonstrates that the student possesses and is able to apply the knowledge, insight and skills acquired in the degree programme.

4. The degree programme is described in the appendix “programme specifics BSc Nanobiology”, along with the subjects, including the study load, number of contact hours and form of examination of each subject, as well as the programming of the examination and the language.

5. The actual design of the education is elaborated in greater detail in the study guide.

Article 8 - Form of the programme

The programme is offered exclusively as full-time.

Article 9 – Language

1. The degree programme is offered in English. The examinations for a component are to be taken in the same language in which the component is taught. The language in which each course is taught shall be listed in the study guide.

2. Requests from students to take one or more components of a test or examination in a language other than that specified in the study guide shall be subject to the determinations regarding this situation contained in the rules and guidelines of the Board of Examiners.

Article 10 – Honours Programme

1. Students who meet the criteria referred to in the appendix “programme specifics BSc Nanobiology” will be invited to register for the Honours Programme Bachelor for outstanding Bachelor’s students.

2. Based on the criteria referred to in the Bachelor’s Honours Programme, students will be selected and admitted to the Bachelor’s Honours Programme by the Honours Coordinator established by the Director of Studies.

3. The Bachelor’s Honours Programme comprises at least 20 credits.
   a. At least 5 credits must be completed in the institution-wide component of the Bachelor’s Honours Programme, which consists of the following components:
      - community engagement,
      - entrepreneurship,
      - leadership,
      - development of specific competences.
b. At least 15 credits must be completed in the faculty component of the Bachelor's Honours Programme, the composition of which (including its content and options) is described in the Honours Programme.

4. All students selected for participation in the Honours Programme must submit their options for the faculty component for approval to the Honours Coordinator.

5. The Board of Examiners will be responsible for assessing whether all the requirements of the Honours Programme have been met.

6. Any student who has successfully completed the Honours Programme will be awarded a certificate signed by the chair of the Board of Examiners and the Rector Magnificus.

**Article 11 – (Compulsory) participation in the programme**

1. All students are expected to participate actively in the subjects for which they are registered.

2. If necessary, there will be an obligation to participate in practical exercises, with a view to admission to the related examination, without prejudice to the authority of the Board of Examiners to grant an exemption from this obligation, with or without imposing a substitute requirement.

3. Any supplementary obligations are described by component in the course description in the study guide.

**Article 12 - Programme evaluation**

1. The Director of Studies is responsible for the evaluation of the education.

2. The manner in which the education in the programme is evaluated is documented in the faculty's Quality Assurance Manual ‘Onderwijskwaliteitszorg Leiden Delft 2012’, which is submitted to the Faculty Student Council and the Board of Studies.

3. The Director of Studies informs the Board of Studies concerning the outcomes of the evaluation, the intended adjustments based on these outcomes and the effects of the actual adjustments.

**Paragraph 4 – Registration for and withdrawal from examinations**

**Article 13 - Registration for written examinations**

1. Registration to participate in a written examination is compulsory and is done by entering the requested data into Osiris no later than 14 calendar days before the examination. Students receive examination tickets by email as confirmation of their registration.

2. Students who have not registered within the term specified in Section 1 may request registration for that examination after this term until no later than three calendar days before the examination by entering the requested data into Osiris. The request will be honoured providing that places are available in the room or rooms where the examination is scheduled to take place. Students receive examination tickets by email as confirmation of their registration.

3. In the event of circumstances beyond a student’s control resulting in the student being unable to register for an examination, the Board of Examiners may nevertheless permit the student to participate in the examination.

4. Students who have not registered for the examination and are therefore not included on the list of examinees can report on the day of the examination to the invigilator beginning 15 minutes before the start of the examination until the actual start. They will be admitted to the examination room, in the order that they reported to the invigilator, 30 minutes after the start of the examination, if sufficient places are available. The
loss of 30 minutes of examination time cannot be compensated. Students who have been granted late access to the examination will be added to the list of examinees. The student participates in the examination subject to the validation of entitlement to participate in the examination.

5. In the situation described in the previous section, if it is found that a student was not entitled to participate in the examination, the examination work will be deemed invalid, it will not be marked and it will not count towards a result. The student may subsequently submit an appeal to the Board of Examiners, accompanied by reasons, requesting that the examination work that has been deemed invalid be declared valid and to have it assessed. The Board of Examiners will approve the request only in case of extenuating circumstances.

**Article 14 - Registration for other examinations**

1. Registration for participation in an examination other than a written examination is compulsory, and it is done in the manner and within the term that is stated in the study guide for the relevant examination. Registration for an oral exam is done by making an appointment with the relevant lecturer, unless indicated differently in the study guide.

2. In special cases, the Board of Examiners make exceptions to the registration term stated in Section 1, but only in favour of the student.

3. Students who have not registered on time will not be allowed to participate in the examination. The Board of Examiners can nevertheless admit a student to the examination, but only in case of special circumstances.

4. In the event of unauthorised participation in an examination, the Board of Examiners may declare the result invalid.

**Article 15 - Withdrawal from examinations**

1. Students can withdraw from an examination through Osiris up to three calendar days before the examination.

2. Any student who has withdrawn from an examination should re-register on a subsequent occasion, in accordance with the provisions of Articles 13 and 14.

**Paragraph 5 – Examinations**

**Article 16 - Form of the examinations and the manner of testing in general**

1. Examinations (oral, written or otherwise) are taken in the manner described in the study guide.

2. The study guide contains a description of the moments at which and the numbers of times that examinations can be taken, along with their frequency, without prejudice to the provisions of these regulations concerning written and oral examinations.

3. A student may participate in an examination for a subject no more than twice in one academic year.

4. In special cases, the Board of Examiners will deviate from the provisions of this Article in favour of the student.

**Article 17 – Times and number of written examinations**

1. Two opportunities to take written examinations will be offered each academic year. These opportunities are described in the appendix “programme specifics BSc Nanobiology”

2. An annual timetable is issued detailing when written examinations may be taken, and it is published before the start of the relevant teaching period.
3. Contrary to the provisions in Section 1, the opportunity to take the written examination for a subject that is not taught in a certain academic year must be given at least once in that year.

4. If there is no indication as to the number of times a particular examination can be taken in any one academic year because it relates to a subject not taught by the programme itself, the relevant stipulations in the Teaching and Examination Regulations of the other programme will apply. The Board of Examiners reserves the right to make decisions that deviate from the norm regarding this matter.

**Article 18 - Oral examinations**

1. For oral examinations, no more than one student shall be tested at a time, unless determined otherwise by the examiner.

2. Oral examinations shall be public\(^1\), except in special cases in which the Board of Examiners has decided otherwise, or if the student has filed an objection to the publicity of the examination.

3. The oral examination is administered by at least two examiners.

4. Prior to an oral examination, the examiner must ask the student to provide proof of identity.

**Article 19 - Determination and announcement of results**

1. The examiner determines the result of a written examination as quickly as possible but by no later than 15 working days after the examination. The results of written interim examinations shall be announced no later than five working days before the next written interim examination.

2. The examiner determines the result of an oral examination immediately or five days after it is administered and issues the student with a written statement of this result.

3. The examiner records the results of the assessment of a practical exercise as quickly as possible, but no later than 15 working days after the completion of the practical exercise at the designated time.

In Osiris, the result will be dated on the date of completion of the practical exercise. With regard to a series of practical exercises in which the knowledge acquired in a previous practical exercise is important to the subsequent practical exercise, the result of the previous practical exercise shall be announced before the subsequent practical exercise. If this is not possible, the examiner shall schedule a timely discussion of the previous practical exercise.

4. The examiner is responsible for the registration and publication of the results in Osiris, with observance of the student's privacy. When the result of an examination is announced, the student is informed about the right of perusal as stipulated in Article 20 as well as about the possibility of appealing to the Examinations Appeals Board.

5. Contrary to the previous provisions, results achieved in the resit period in August shall be registered and published no later than the last working day of the week following the examination week in August.

6. If special circumstances prevent the examiner from registering the results on time, the examiner will report this to the Board of Examiners, accompanied by reasons, and notify the students and student administration as quickly as possible.

**Article 20 - Right to inspect results**

1. Upon request, students will have the right to inspect their assessed work during a period of at least 20 working days after the announcement of the results of a written examination or the assessment of a practical exercise. Students intending to appeal against the assessment of their work will be issued with a copy of the assessed work.

---

\(^1\) In public means that both the student and the examiner agree to invite an observer with the aim to guarantee the objectivity of the examination.
2. During the period mentioned in Section 1, all students who have participated in the examination can become acquainted with the questions and assignments of the relevant examination, as well as with the standards that form the basis of the assessment.

Notwithstanding the before mentioned in par 1 the student has the right to inspect the results before the resit.

3. The examiner can determine that the inspection or cognizance intended in Sections 1 and 2 will take place at a pre-established place and at a pre-established time.

4. Students proving that they were unable to appear at such an established place and time because of circumstances outside of their control will be offered another possibility, if possible within the period mentioned in Section 1. The place and times mentioned in the first sentence will be made known in good time.

Article 21 - Discussion of the results of examinations

1. Students who have taken a written examination or who have received the assessment of a practical exercise can ask the relevant examiner for a discussion of the results during a period of 20 working days after the announcement of the results. The discussion will take place within a reasonable period, at a place and time to be determined by the examiner.

Notwithstanding the before mentioned the student has the right to inspect the results before the resit

2. At the request of the student or at the initiative of the examiner, a discussion justifying the assessment will take place between the examiner and the student as soon as possible after the announcement of the result of an oral examination.

3. If a collective discussion is organised by the examiner, students may submit requests as referred to in the last section only if they have been present at the collective discussion and have motivated their requests, or if they were unable to be present at the collective discussion because of circumstances outside their control.

4. The provisions of section 3 are similarly applicable if either the Board of Examiners or the examiner first gives the student the opportunity to compare his/her answers with model answers.

5. The Board of Examiners may allow deviation from the provisions in Sections 2 and 3.

Article 22 - Period of validity for examinations

1. The period of validity of the results of an examination is indefinite. The dean can restrict the period of validity of a successfully completed examination only if the knowledge or insight that was examined has become outdated or if the skills that were examined have become outdated.

2. In cases involving a limited period of validity based on the first section, the period of validity shall be extended at least by the duration of the acknowledged delay in studies, based on the TU Delft Profiling Fund Scheme.

3. In individual cases involving special circumstances, the Board of Examiners can extend periods of validity that have been limited based on the first section or further extend periods of validity that have been extended based on the second section.

4. The terms of art. 22 section 1, 2 and 3 likewise apply to component examinations, provided that credits are administered to the component examination. If credits are not administered for a component examination, the period of validity of the component examination shall be restricted to the academic year in which the result for the component examination was obtained, unless the validity of the component examination is linked to a period of time mentioned in the study guide.

Article 23 - Exemption from an examination or obligation to participate in a practical exercise

1. After having obtained recommendations from the relevant examiner, the Board of Examiners may grant exemptions to students:
a. who have successfully completed an examination or degree audit in a system of higher education within or outside the Netherlands that corresponds to the examination for which the exemption has been requested in terms of content and level, or
b. who demonstrate that they possess sufficient knowledge and skills that have been acquired outside the system of higher education.

2. After having obtained recommendations from the relevant examiner, the Board of Examiners may grant exemption from the requirement to participate in a practical exercise with a view to admission to the related examination, possibly subject to alternative requirements.

**Article 24 - Periods and frequency of degree audits**

In principle, the opportunity to take the Bachelor’s degree audit will be offered once 10 times a year. The dates for the meetings of the Board of Examiners shall be published before the beginning of the academic year.

**Paragraph 6 – Studying with a disability**

**Article 25 - Adjustments to the benefit of students with disabilities or chronic illnesses**

1. Upon a written and substantiated request to that effect, students with disabilities or chronic illnesses may be eligible for adjustments in teaching and examinations. These adjustments are coordinated to the situations of the students as much as possible, but they may not alter the quality or level of difficulty of a subject or the study programme. Facilities to be provided may include modifications to the form or duration of examinations and/or practical exercises to suit individual situations or the provision of practical aids.

2. Requests as mentioned in Section 1 must be accompanied by a recent statement from a physician or psychologist or, in cases involving dyslexia, from a testing office registered with BIG, NIP or NVO. If possible, this statement should include an estimate of the extent to which the condition is impeding the student’s academic progress.

3. Decisions concerning requests for adjustments relating to educational facilities are taken by the Dean or by the Director of Studies on the Dean’s behalf. Decisions concerning adjustments relating to examinations are taken by the Board of Examiners.

4. Adjustments to examinations can involve the following or other matters:
   - form (e.g. replacing a written test with an oral test or vice versa, testing the required material in the form of interim examinations or granting exemptions to the attendance requirement);
   - timing (e.g. additional time for an examination, wider staggering of examinations across the examination period, granting exemptions to admission requirements or extending the period within which a component must be completed);
   - aids permitted during testing (e.g. English-Dutch dictionaries for students with dyslexia);
   - location (taking the examination in a separate, low-stimulus space).

5. Adjustments in educational facilities could include:
   - providing modified furniture in teaching and examination spaces;
   - providing special equipment (e.g. magnification or Braille equipment for students with visual impairments and blindness or loop systems and individual equipment for students with hearing impairments and deafness);
   - providing more accessible course material;
   - providing special computer facilities (e.g. speech-recognition or speech-synthesising software);
   - providing a rest area.
Paragraph 7 - Study support and (binding) recommendation on the continuation of studies

Article 26 – Study support and Monitoring of student progress

1. The Dean is responsible for providing individual study supervision to students registered for the degree programme, partly for their orientation towards potential study options within and outside the degree programme. He will also ensure that effective support and supervision is provided to students in making choices related to their studies.

2. The examination and study programme applying to each student is documented in Osiris.

3. The Student Administration is responsible for ensuring that all students are able to review and check their results in the Osiris student-information system.

Article 27 – (Negative) binding recommendation on the continuation of studies

1. No later than the end of the first year of enrolment for the degree programme, all students who have not terminated their enrolment before 1 February of that academic year will be issued a recommendation by the Dean concerning the continuation of their studies within or outside the degree programme. The Dean will issue every student enrolled for the first time in the first study year of the degree programme with the following:
   - a preliminary recommendation (which also serves as a warning) in March;
   - a proposed binding recommendation on the continuation of studies in early August or a definitive positive recommendation on the continuation of studies;
   - a definitive (positive or negative) binding recommendation on the continuation of studies no later than 31 August.

2. Any student who has secured fewer than 45 credits by the end of the first year of study (date of final results: 31 August) will be issued with a negative binding recommendation on the continuation of studies. This student’s enrolment will be terminated with effect from the first of the month following the date of the decision in which the recommendation was included, but no earlier than 1 September of the year following the first year of study.

3. Students who have been granted exemptions for more than 15 credits in their first academic year that do not apply to the standard of 45 credits, based on Section 6 of this Article, shall not be required to earn 45 credits in the first year, although they are required to have completed the entire first academic year.

4. For programmes offered jointly with another institution, the required standard will be determined in consultation with the institution in question.

5. Termination of enrolment, as stipulated in the first section, leads to exclusion from the programme for four academic years after the academic year for which the recommendation was issued.

6. The 45 credits originate from the programme for the first year of study in the degree programme in which the student is enrolled.

7. If the student has been awarded exemptions, they may be counted towards the required standard of 45 credits if the activity on the basis of which the exemption was awarded took place in the same academic year as the year for which the binding recommendation on the continuation of studies was issued. The exemptions may not be counted if the activity, on the basis of which the exemption was awarded, took place prior to the academic year for which the binding recommendation on the continuation of studies was issued.

8. If the Dean judges that a student was unable to achieve the required standard of 45 credits as a result of personal circumstances, the Dean will permit said student either to achieve the standard of 45 credits from the programme for the first year of study in the degree programme in which the student is enrolled in the following academic year, with credits secured in the first year of study not counting towards this, or to complete the first year of study in its entirety.

9. If the Dean judges that enrolment after 1 October has had such an influence that a student was unable to achieve the required standard of 45 credits, the Dean will permit said student either to achieve the standard
of 45 credits from the programme for the first year of study in the degree programme in which the student is enrolled in the following academic year, with credits secured in the first year of study not counting towards this, or to complete the first year of study in its entirety.

**Paragraph 8- Final provisions**

**Article 28 - Conflicts with the regulations**

In the case of conflict between provisions in the study guide or other document concerning the relevant teaching and examination education and study programme and these regulations, the provisions of these regulations shall take precedence.

**Article 29 - Amendments to the regulations**

1. Amendments to these regulations shall be adopted in a separate decree by the faculty boards of the Faculty of Applied Sciences and the general session (GV) of Erasmus MC, upon the advice of the Board of Studies of the degree programme and following legally specified consultation with the relevant representative bodies.

2. Amendments that are applicable to the current academic year will be made only if they would not reasonably damage the interests of students.

3. Amendments to these regulations may not lead to disadvantageous changes to any decisions that have been made with regard to individual students.

**Article 30 - Transitional measures**

1. If the composition of the degree programme undergoes substantive changes, transitional measures will be established and published through the Dean.

2. These transitional measures shall include at least the following:
   a. an arrangement regarding exemptions that may be obtained based on examinations that have already been passed;
   b. the period during which the transitional arrangement shall be valid.

3. Students shall follow the degree programme as it applied or applies during the first academic year of their enrolment, unless components of the programme are no longer offered. In such cases, students must transfer according to the applicable transitional measures. Deviations require the approval of the Board of Examiners. Before submitting a request to this end, the student must have first obtained recommendations from an academic counsellor.

4. If a subject within a degree programme is cancelled, four additional opportunities for taking the examination in this subject shall be offered after it has been taught for the last time: the examination at the end of the teaching of the subject, a resit in the same academic year and two resits in the following academic year.

**Article 31 - Announcement**

1. The Dean is responsible for ensuring a suitable announcement of these regulations and any amendments to them.

2. In any case, the Teaching and Examination Regulations are to be posted on the programme's website.

**Article 32 - Entry into force**

These regulations shall enter into force on 1 September 2018.
Adopted by the Dean of the faculty Applied Sciences on July 3, 2018.

Prof. dr. ir. L.J. van Vliet
APPENDIX to Art. 3 of the Model TER

Language level for individuals holding a foreign degree (c)

- The English language, through the successful completion of one of the following tests:
  - A TOEFL iBT (Test of English as a Foreign Language internet-Based Test), with an overall band score of at least 70 and a minimum score of 21 for each section, or
  - an IELTS (Academic version) with an overall band score of at least 5.5, or
  - a proof of completion of the Cambridge Certificate of Proficiency in English (CPE) or Certificate in Advanced English (CAE), both of the University of Cambridge.

Certificates older than two years shall not be accepted.

People’s Republic of China nationals:
For visa purposes you will need a Nuffic certificate as proof of English language proficiency, to be obtained by passing the aforementioned TOEFL or IELTS test.

The following candidates shall be exempted from the requirement to pass an English language test:
- Nationals from the USA, UK, Ireland, Australia, New Zealand and Canada
- Applicants with an International Baccalaureate, European Baccalaureate diploma, or European secondary school diploma (pre-university certificate) considered equivalent to the Dutch pre-university education, with English as a final examination subject. Please note that a ‘pass’ (sufficient score) for English is required on the secondary school certificate.
