Evaluation criteria for Management in the Built Environment

Portfolio and Letter of Motivation give the following profile of the applicant:

- The application demonstrates strong interest in the Management in the Built Environment MSc programme and presents convincing reasons for choosing the programme at TU Delft.
- The application demonstrates the ability to communicate a variety of topics in a concise and original way and to express ideas effectively in words, drawings and other media.
- The application explains the approach and critical position of the applicant.
- The application demonstrates academic knowledge and experience.
- The application shows evidence of skills and competences in design, engineering and management, particularly analytical skills, the ability to synthesize, and the use of tools and techniques.
- The application contains a variety of projects which demonstrate knowledge from previous education and an understanding of the links between the management of the built environment, architecture, building technology, landscape architecture and/or urbanism.

All criteria must be met. Failing on one of them can lead to a rejection.
