

# EDUCATING THE WORLD FOR A BETTER SOCIETY

Lifelong Learning at TU Delft

  
**TU Delft**

# WORLD-CLASS EDUCATION FOR ALL

The Delft University of Technology (TU Delft) is recognized as a global thought-leader in open and online engineering education (MIT, 2018)\*. It has been at the forefront of innovation in open and online education since 2007 and is consistently aiming to make a significant contribution toward a sustainable society for the 21<sup>st</sup> century.

TU Delft provides continuing education to develop and enhance the expertise of lifelong learners throughout their careers, including exclusive benefits for working professionals and Alumni. The current online portfolio comprises a number of knowledge areas that are key in contributing to solving real-world societal challenges related to the UN Sustainable Development Goals.

\* MIT report 'Global state of the art in engineering education', March 2018

The courses are designed to equip today's professionals with the latest knowledge to further their personal development and career prospects. They are research based, learner centred, industry relevant and endorsed by leading international companies.

"The value comes from the focus given to topics that are relevant for our business and future needs. The online courses are high-quality and reflect the University's reputation and high standards. This gives our colleagues all over the world entry to high-quality professional education at the touch of a button."

– Lisette Heuer, Royal Haskoning DHV

"With a very good grade from the *Aircraft Performance: Physics and Simulation* TU Delft's online course, I can now undertake more challenging roles and also get involved in test flights and aircraft sales and marketing."

– Rathina Sabbapathy, TU Delft Alumna

# A SPECIAL 'ALUMNI' SELECTION

To encourage our Alumni to try out and benefit from our online portfolio, the TU Delft Extension School and TU Delft Alumni Relations offer them a number of carefully selected courses from our faculties at a [special 25% discount!](#)

Alumni can use the discount code 'alumni25' for any of the below courses:

Thing-Centered Design: A New Approach to Designing for the IoT	Industrial Design Engineering	Jun 15	
Design of Lightweight Structures: Composite & Metal	Aerospace Engineering	Sep 3	
Fatigue of Structures & Materials	Aerospace Engineering	Sep 3	
Fiber Reinforced Polymer (FRP) Composites in Structural Engineering	Civil Engineering & Geosciences	Sep 26	
Adaptive Planning for Infrastructure and Water Management	Technology, Policy & Management	Oct 9	
Air Safety Investigation	Aerospace Engineering	Nov 7	
High-rate Anaerobic Wastewater Treatment	Civil Engineering & Geosciences	Nov 7	
Culture Sensitive Design	Industrial Design Engineering	Nov 12	
Design Leadership and Innovation	Industrial Design Engineering	Nov 13	
Energy Friendly Renovation Processes	Architecture & the Built Environment	Nov 14	
Nanofiltration and Reverse Osmosis in Water Treatment	Civil Engineering & Geosciences	Nov 14	
Design for Values: Sharpen Your Business Proposition	Technology, Policy & Management	Nov 15	
Design Your Next Career Move	Career & Counselling Services	Anytime
